

## Dulliau cymysg

**Dyddiad:** Dydd Mercher 1 Mai 2019. 2:00-5:00pm

**Lleoliad:** Ystafell 013, Adeilad Deiniol, Prifysgol Bangor, Ffordd Deiniol, Bangor, LL57 2UX

Bydd y gweithdy hanner diwrnod hwn i ymchwilyr a arweinir gan yr Athro Martina Feilzer, Prifysgol Bangor, yn cynnig ymgysylltu ymarferol uwch â materion sy'n ymwneud ag ymchwil dulliau cymysg (MMR). Bydd yn trafod y paradeimau sy'n sail i MMR, yn amlinellu rhai o'r egwyddorion i'w hystyried - dylunio ymchwil, triongli, dadansoddi - a chynnig y cyfle i ddefnyddio cymysgedd o ddata meintiol ac ansoddol i edrych ar fanteision a chyfyngiadau MMR.

Mae'r gweithdy wedi'i ddylunio i fyfyrwyr PhD ac ECRs sy'n gweithio gyda ffynonellau data cymysg, yn ogystal â'r rhai hynny sy'n ystyried cymysgu ffynonellau data.

Bydd y drafodaeth ar ddadansoddi data, triongli ayyb. yn cael ei chyflwyno drwy ddefnyddio data arolwg a chyfweiliadau yn ogystal â data cyd-destunol – byddai bod yn gyfarwydd â SpSS o fantais.

Bydd y diwrnod hyfforddi hwn yn cael ei gyflwyno trwy gyfrwng y Saesneg

Am rhagor o wybodaeth am **Ddigwyddiadau WISERD** a sut i archebu ewch i'n gwefan [wiserd.ac.uk/events](http://wiserd.ac.uk/events)

Gall **WISERD** hefyd cynnig cyrsiau hyfforddiant pwrpasol ar gais. I holi am ddigwyddiadau **WISERD**, cysylltwch â'r Swyddfa **WISERD** ar 02920 870983 neu e-bostiwch [wiserd.events@cardiff.ac.uk](mailto:wiserd.events@cardiff.ac.uk)

## Mixed Methods

**Date:** Wednesday 1 May 2019. 2:00-5:00pm

**Venue:** Room 013, Adeilad Deiniol, Bangor University, Deiniol Road, Bangor, LL57 2UX

This half day workshop for researcher lead by Professor Martina Feilzer, Bangor University, will provide hands-on advanced engagement with matters related to mixed methods research (MMR). It will discuss the paradigms underpinning MMR, outline some of the principles to be considered –research design, triangulation, analyses – and provide an opportunity to use a mixture of quantitative and qualitative data to explore the advantages and limitations of MMR.

The workshop is designed for PhD students and ECRs who are working with mixed data sources, as well as those who are considering the mixing of data sources.

The discussion of data analyses, triangulation, *etc.* will be illustrated by using interview and survey data as well as contextual data – familiarity with SpSS would be an advantage.

This training day will be delivered through the medium of English.

For further information on **WISERD Events** and how to book visit our website at [wiserd.ac.uk/events](http://wiserd.ac.uk/events)  
**WISERD** can also offer bespoke training courses on request. To enquire about **WISERD** events, please contact the **WISERD** Office on 02920 870983 or email [wiserd.events@cardiff.ac.uk](mailto:wiserd.events@cardiff.ac.uk)
