

## CHILDREN DISPLACED ACROSS BORDERS PUBLIC INFORMATION SESSION

### THE UNCRC

The 54 articles of the UN Convention on the Rights of the Child (UNCRC) cover all aspects of a child's life, from the right to education, health and protection from abuse to the right to freedom of expression and access to information.

...

Children may be displaced across borders for many reasons, including but not limited to poverty, violence or political upheaval, transit for commercial exploitation, and human trafficking.

However, the UNCRC outlines what governments and adults must do to ensure all children can enjoy all their rights.
